

**Structures Engineer**

---

**Job Title:** Structures Engineer

**Job Type:** Permanent

**Location:** Scotland

**Salary:** Negotiable

**Company:**

Founded in 1967, and operating in Ireland, United Kingdom, Poland, South Pacific and the Middle East, Roadbridge is a leader in Civil Engineering. Roadbridge has the experience, capability and a proven track record in delivering major projects across a range of sectors on time and on budget. Our core ethos is not just to meet client expectations, but to exceed them, making us the partner clients want to work with.

**Job Summary:**

We are looking to appoint a site structures/bridge engineer, for a project in Scotland. The successful candidate will be enthusiastic, confident and motivated with good communication and mathematical skills and able to work independently as well as part of a team. It is vital that they are able to demonstrate a pragmatic and proactive approach to problem-solving and an ability to liaise with site management and client's representatives as appropriate. They will be required to undertake surveying, setting out and site supervision work while keeping records of all site activities. The work will be a mix of field-based work and QA reporting.

**Responsibilities:**

- Set out, level and survey for bridge foundations and erection
- Attend regular meetings with internal and subcontractor personnel
- Compile quality control records
- Contribute to HSE management onsite
- Record and monitor site plant and personnel
- Analyse quantities and prepare 3D models for GPS controlled plant

**Requirements:**

- Degree qualification in Civil or structural Engineering

**Structures Engineer**

---

- Total station setting out experience is essential
- Ability to read engineering drawings and prepare material take-off's
- Previous experience in bridge construction is required
- Strong work ethic and desire to progress to senior role
- Ideally have experience with piling and formwork also
