

**Job Title:** Materials Controller

**Job Type:** Permanent

**Location:** Scotland

**Salary:** Negotiable depending on experience

**Company:**

Founded in 1967, and operating in Ireland, United Kingdom, Poland, South Pacific and the Middle East, Roadbridge is a leader in Civil Engineering. Roadbridge has the experience, capability and a proven track record in delivering major projects across a range of sectors on time and on budget. Our core ethos is not just to meet client expectations, but to exceed them, making us the partner clients want to work with.

**Job description**

We are looking to appoint a materials controller for a gas pipeline project in south west Scotland. The successful candidate will be enthusiastic, confident and motivated with excellent attention to detail, good communication skills and able to work independently as well as part of a team. It is vital that they are able to demonstrate a pragmatic and proactive approach to their work, whilst delivering their technical expertise and liaising with site management and client's representatives as appropriate.

**Duties**

- Management of all materials within the pipe dumps and storage areas.
- Ensure material stocks are maintained
- Control of all material management within the yard
- Inspection of materials for defects
- 

**Qualifications, Skills and Experience**

- Have an understanding of civil engineering construction techniques and sequences of work,
- Good communication, team working and IT Skills e.g. Microsoft Office
- Flexible and Enthusiastic
- Able to prioritise and have good organisational and timekeeping skills
- Attention to detail and accuracy
- Be able to multi-task and be confident in own ability
- Self-motivated
- CSCS card for slinger or crane supervisor would be advantageous
